

# Brooks Cutter

Principal Program Leader - AI Governance, Privacy Engineering, and Responsible AI

Seattle, WA | brooksc@brooksc.com | 650-785-4656 | linkedin.com/in/brooksc | github.com/brooksc

---

## EXECUTIVE SUMMARY

---

Principal program leader with a decade-plus running regulated platforms at scale. At Meta, drove the third-party dataset review process for Llama 4 (acknowledged in the whitepaper), supported LlamaFirewall, and ran executive-level policy reviews for major GenAI launches. Founded and ran Meta's post-Cambridge-Analytica API Governance program as a 10-TPM organization -- the FTC consent-decree response -- with oversight of API design, developer access controls, third-party app review, and regulator compliance. 16+ years at Microsoft establishing digital-rights and content-platform standards.

## PROFESSIONAL EXPERIENCE

---

### Meta Platforms Inc.

Principal Technical Program Manager / Group TPM / TPM Manager

*Feb 2019 - Present*

- Drove the third-party dataset review process for Llama 4 (acknowledged in the whitepaper) -- stood up the workflow from scratch with Legal, aligned 252 AI researchers and a 48-person cross-functional team, and drove 575 reviews (88% on Llama 4 training critical path) against hard launch deadlines.
- Supported LlamaFirewall (Meta's open-source guardrails for AI agents) and drove 59 novel GenAI risk reviews as the GenAI space scaled inside Meta.
- Ran executive-level policy reviews for GenAI launches -- coordinated Legal, Partnerships, Policy, Product, and Engineering to propose risk positions, secure executive sign-off, and verify implementation against the requirements set during review.
- As Safeguard Owner for 20% of Meta's global privacy controls, consolidated 32 redundant safeguards, led FTC and EU regulator assessor responses, and drove resolution of 29 high-priority compliance issues.
- Founded and ran Meta's post-Cambridge-Analytica API Governance program from 2019 through 2024 as a 10-TPM organization -- the FTC consent-decree response. Drove third-party app review at scale (21,000+ risk reviews across a 159-reviewer matrix), rationalized Meta's external API surface from 10,000+ endpoints to roughly 6,000, and cut review cycle time from 92 days to 5.
- Most recently ran LLM inference and Responsible Engineering reliability programs in Meta's AI infrastructure org -- post-mortem discipline, SLO instrumentation, and cross-team coordination for safety-critical pipelines.

### Syntonic Inc.

Director of Program Management

*Jun 2017 - Feb 2019*

- Delivered mobile data integrations for network operators across Asia and Africa; managed India-based engineering team from requirements through carrier certification and launch, shipping 10 iOS/Android applications, 4 SDKs, and multiple carrier integrations. Introduced product roadmaps, structured bug tracking, and automated testing.

### Mast Mobile Inc.

Principal Program Manager

*Jun 2014 - Jun 2017*

- Launched a dual-phone identity platform end-to-end across iOS, Android, web portals, carrier provisioning, VoIP, CRM, onboarding, number porting, and fraud management; built end-to-end test coverage across carrier systems, VoIP providers, Salesforce, and Microsoft Dynamics.

### m-ize Inc.

Senior Program Manager

*Oct 2013 - Jun 2014*

- Led delivery planning and offshore execution for customer projects, including scope definition, implementation coordination, and release tracking across engineering and client stakeholders.

## Microsoft Corporation

Principal / Group / Lead Program Manager

*May 1996 - Nov 2012 (16+ years)*

- Established Microsoft's digital-media-rights leadership as Group PM for Windows Media DRM -- directed 8 PMs across DRM product strategy, partner certification, breach-response, and conformance-testing programs for content providers and device partners.
- Secured FCC Broadcast Flag approval for Windows Media DRM by authoring Microsoft's technical submission and drove AACS standards engagement for Blu-ray and HD DVD encryption -- regulatory and standards-body work as Group PM.
- Earlier roles included Senior PM for Zune Marketplace (launched backend in 3 months), Principal PM Architect for Xbox Music (22 international markets), and Lead PM for Windows Media Codecs (silicon-partner certification across ARM and TI DSP embedded platforms).
- Earned Microsoft Consultant of the Year, North America (1997) early in tenure.

## CORE STRENGTHS

---

AI Risk and Policy Review - Dataset and Model Governance - Privacy Engineering and FTC/EU Compliance - Responsible AI Governance - Regulator Engagement - AI Agent Safety

## TECHNICAL SKILLS

---

**Governance and Risk:** AI risk review, dataset governance, model launch policy, FTC and EU regulator assessor engagement, privacy controls, third-party app review, abuse and integrity detection, safeguard consolidation.

**AI and LLM:** LLM evaluation, dataset review pipelines, responsible AI, agent guardrails (LlamaFirewall), Llama 4 acknowledged whitepaper contribution, MCP servers and skills, RAG.

**Languages and Platforms:** Python, Node.js, Bash/Shell, SQL, REST, GraphQL, AWS, Git/GitHub.

**Selected AI Tooling Projects:** Use Claude Code and Codex daily; built multiple MCP servers and skills, a Claude Code plugin for multi-LLM document review, and local-LLM file automation. Top external contributor to johannesjo/parallel-code (open-source coding-agent project); contributed the multi-agent orchestration component.

## PATENTS, CERTIFICATION, AND EDUCATION

---

**Patents:** Eight issued patents spanning digital rights management, licensing, device certificates, symmetric-key optimization, and member-based domain architecture. **Certification:** Project Management Professional (PMP).

**Education:** B.S. in Computer Science, Eckerd College.
