

Brooks Cutter

Principal Technical Program Manager - Cross-Org Program Leadership and TPM Management

Seattle, WA | brooksc@brooksc.com | 650-785-4656 | linkedin.com/in/brooksc | github.com/brooksc

EXECUTIVE SUMMARY

Principal program leader with over two decades running cross-org technical programs and managing TPM teams at Microsoft and Meta. At Meta, founded and ran the post-Cambridge-Analytica API Governance program as a 10-TPM organization from 2019-2024 -- a multi-year transformation against regulator-driven deadlines that drove API review cycle time from 92 days to 5. Most recently managed 5 TPMs in AI Data and Responsible Engineering and ran LLM inference programs in Meta's AI infrastructure org. 16+ years at Microsoft directing PMs across DRM, Marketplace, Xbox Music, and embedded codec programs.

PROFESSIONAL EXPERIENCE

Meta Platforms Inc.

Principal Technical Program Manager / Group TPM / TPM Manager

Feb 2019 - Present

- Founded and ran Meta's post-Cambridge-Analytica API Governance program from 2019 through 2024 as a 10-TPM organization with oversight of API design, developer access controls, third-party app review, and FTC/EU regulator compliance for Meta's external APIs. Multi-year transformation against hard regulator deadlines.
- Drove API review cycle time from 92 days to 5, enabling 600+ product teams to ship third-party integrations approximately 90% faster. Meta's Chief Product Officer cited the program as a company-wide benchmark for cross-functional execution.
- Most recently managed 5 TPMs in AI Data and Responsible Engineering at Meta's AI infrastructure org. Drove access-friction work reducing interrupted data queries from 35% to 1.4% (beating the reliability target) and applied LLM tooling to automate routine data-access workflows.
- Coordinated cross-org execution of Meta's first production LLM inference migration -- aligned serving, acceleration, hardware (NVIDIA H100/H200, AMD MI350X), and efficiency partners against a shared roadmap, milestones, and risk register. Reduced GPU footprint approximately 57% (~200 GPUs).
- Ran executive-level policy reviews for major GenAI launches -- coordinated Legal, Partnerships, Policy, Product, and Engineering to propose risk positions, secure executive sign-off, and verify implementation.
- Stood up Meta's third-party dataset review process for Llama 4 (acknowledged in the whitepaper) -- aligned 252 AI researchers and a 48-person cross-functional team to drive 575 reviews against hard launch deadlines.

Syntonic Inc.

Director of Program Management

Jun 2017 - Feb 2019

- Delivered mobile data integrations for network operators across Asia and Africa; managed India-based engineering team from requirements through carrier certification and launch, shipping 10 iOS/Android applications, 4 SDKs, and multiple carrier integrations. Introduced product roadmaps, structured bug tracking, and automated testing.

Mast Mobile Inc.

Principal Program Manager

Jun 2014 - Jun 2017

- Launched a dual-phone identity platform end-to-end across iOS, Android, web portals, carrier provisioning, VoIP, CRM, onboarding, number porting, and fraud management; built end-to-end test coverage across carrier systems, VoIP providers, Salesforce, and Microsoft Dynamics.

m-ize Inc.

Senior Program Manager

Oct 2013 - Jun 2014

- Led delivery planning and offshore execution for customer projects, including scope definition, implementation coordination, and release tracking across engineering and client stakeholders.

Microsoft Corporation

Principal / Group / Lead Program Manager

May 1996 - Nov 2012 (16+ years)

- Directed 8 PMs as Group Program Manager for Windows Media DRM -- DRM product strategy, record-label and movie-studio negotiations, partner certification programs, and standards engagement (FCC Broadcast Flag approval, AACS for Blu-ray and HD DVD).
- Led platform delivery programs at international scale as Principal PM Architect for Xbox Music (22 international markets), Senior PM for Zune Marketplace (3-month backend launch), and Lead PM for Windows Media Codecs (silicon-partner certification across embedded platforms).
- Earlier as Senior Consultant in Microsoft Consulting Services, advised Coca-Cola, Macy's, and Georgia-Pacific on Internet strategy -- earned Microsoft Consultant of the Year, North America (1997).

CORE STRENGTHS

Cross-Org Program Leadership - TPM Team Management - Executive Stakeholder Engagement - Multi-Year Transformation Programs - Regulator-Driven Delivery - Operating Cadence and Rhythm

TECHNICAL SKILLS

Program Leadership: TPM team management, cross-org dependency management, executive stakeholder communication, operating cadence and rhythm of business, OKR cascades, multi-year transformation programs.

Domain Breadth: AI infrastructure, LLM inference, developer platforms, API governance, privacy engineering, regulatory compliance (FTC, EU), responsible AI, content platforms, embedded systems.

AI and LLM: LLM inference, dataset governance, responsible AI, agent guardrails, MCP servers, Claude Code, Codex. Top external contributor to johannesjo/parallel-code (open-source coding-agent project); contributed the multi-agent orchestration component. github.com/brooksc.

Languages and Platforms: Python, Node.js, Bash/Shell, SQL, REST, GraphQL, AWS, Git/GitHub.

PATENTS, CERTIFICATION, AND EDUCATION

Patents: Eight issued patents spanning digital rights management, licensing, device certificates, symmetric-key optimization, and member-based domain architecture. **Certification:** Project Management Professional (PMP).

Education: B.S. in Computer Science, Eckerd College.
